

Dec 8th 2023 - Acquisition of Lennartz Electronic

We are very happy to announce that Reftek Systems Inc has recently acquired the intellectual property and assets of Lennartz Electronic of Tübingen Germany. The successful acquisition of this iconic brand represents a major step forward in the growth of Reftek Systems. We are excited to be bringing the famous line of products including LE-3Dlite, LE-1Dlites, LE-3D/5s as well as LE-3D Borehole products to Canada for production in Reftek's manufacturing facility.

We look forward to serving Lennartz past and future customers from our offices in Halifax, Nova Scotia and Dallas, Texas.

About Reftek - Founded in 1975 in Texas, Reftek was acquired by local investors in May of 2020 and moved to its current home in Halifax, NS, Canada. Reftek designs and manufactures precision seismic recorders and sensors for earthquake science and infrastructure monitoring.

About Lennartz – Founded more than 64 years ago by Herbert Lennartz, the company was one of the early leaders of recorder and seismic sensor design. Currently it is most famously known for its 3Dlite seismometer line of products.
